

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

Rathbone SICAV Multi-Asset Total Return Portfolio (P2 GBP Acc)

A sub-fund of Rathbone Luxembourg Funds SICAV
Management Company: FundRock Management Company S.A.
P2 GBP Acc ISIN: LU14873223O4

OBJECTIVES AND INVESTMENT POLICY

The sub-fund's objective is to deliver a greater total return (+ 2% after fees) than the Bank of England's Base Rate, over any three-year period by investing with the Liquidity, Equity-type risk and Diversifiers assets (LED) framework developed by the investment manager. The subfund aims to deliver this return with no more than one-third of the volatility of the FTSE Developed Markets Index. There is no guarantee that the subfund will achieve a positive return over this, or any other, period and you may not get back the original amount you invested.

Under normal circumstances the sub-fund invests mainly in shares from the UK and in other securities, including bonds and money market instruments. The sub-fund will ordinarily invest in these securities directly, but may gain exposure to them by investing in other collective investment schemes (sub-funds, such unit trust, UCITS and OEICS).

The sub-fund may also invest in other securities permitted by the Prospectus. The sub-fund may use investment techniques and derivatives for efficient portfolio management (including hedging) and to seek investment gains.

The sub-fund is managed at the fund manager's discretion. The manager uses its own analysis to determine an overall allocation amongst different asset classes based on anticipated growth and income over the long term.

The sub-fund does not integrate sustainability risks into its investment decision making process.

The fund offers accumulation shares (shares in which any income payable by the fund is reinvested).

Designed for: Investors who understand the sub-fund risks, want an investment that combines income and growth, and intend to invest their money in these investments for a minimum of three years, preferably longer.

You can buy and sell units on each business day of the sub-fund between 9am and 5pm Luxembourg time.

Shares: For the purposes of the investment policy, securities that represent fractional ownership in a company (as distinct from shares in this sub-fund).

Bonds: Securities that represent an obligation to repay a debt, along with interest.

Derivatives: Financial instruments whose value is linked to one or more rates, indices, share prices or other values.

Hedging: Using techniques to partially cancel out risks.

Money market instruments: High-quality investments that pay interest and are designed to maintain a stable value.

RISK AND REWARD PROFILE

These numbers rate how the Fund may perform and the risk of losing some or all of your investment. In general the potential for higher returns also implies a higher level of risk. However, the lowest category (1) does not mean a risk free investment. The risk category is calculated using historical data and may not be a reliable indicator of the Fund's future risk profile. The risk category shown is not guaranteed and may change over time.

The risk indicator for this sub-fund reflects the following:

- As an asset class, shares have greater risk than either bonds or money market instruments.
- The sub-fund's emphasis on income helps it to maintain a moderate risk profile.
- As this share class is less than five years old, the indicator is not based solely on actual performance for the class.
- The value of investments in the sub-fund and the income from them may go down as well as up and you may not get back your original investment when you sell your shares.

During unusual market conditions, the risks normally experienced by the sub-fund may increase significantly, and in addition, the sub-fund may be subject to the following risks:

Liquidity risk: Some assets become hard to sell at their expected price. This could mean we have to sell assets below their expected price resulting in a loss. In extreme circumstances, we may suspend the fund to protect your investment, resulting in you being unable to access your money.

Counterparty risk: A company that we deal with may renege on its obligations, costing you money.

Interest Rate Risk: Most bonds pay us a fixed amount over an agreed period of time. If interest rates rise these bonds become less valuable and we may be locked into an unfavourable investment. If interest rates fall these bonds become more valuable.

Credit Risk: Bonds that we own can become more or less creditworthy and will fluctuate in value resulting in gains or losses. Bonds that we own may fail to meet their legal obligations, such as missing an interest payment. This is known as a 'default' and will result in a loss.

Operational Risk: We rely on complex systems to ensure that trades are completed, our fund's assets are accounted for and that you can buy or sell our fund. If our systems fail, you could be inconvenienced or lose money.

Derivatives risk: Sometimes we use financial contracts, such as structured products and currency hedging, to reduce risk. There is a chance that these derivatives won't work in the way we intended, which could result in unexpected gains or losses.

Management risk: People make the investment decisions for our fund. If they make unfavourable decisions, you could lose money.

Currency risk: Changes in currency exchange rates could adversely affect sub-fund performance.

CHARGES FOR THIS FUND

The fund manager receives an annual fee, which is included in the ongoing charges shown below. Ongoing charges are the same for all investors in the same class.

The published OCF reflects the expenses cap on Other Fees of 0.25% (excluding any synthetic element) which was introduced on the fund on 11 March 2024.

The charges shown below are for the Luxembourg P2-class GBP shares.

Entry Charge		2.00%(maximum)
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.		
Exit Charge		none
This is the maximum that might be taken out of your money before it is invested or before the proceeds of your investment are paid out.		
Ongoing Charges		1.79%
Charges taken from the Sub-Fund under certain specific conditions		
Performance Fee		none

For more information about charges, please see the 'Charges' section of the sub-fund's Prospectus, available by calling the international information line or emailing international@rathbones.com

PAST PERFORMANCE

Basis of performance: Price performance based upon mid to mid price. Past performance is reported on a full calendar year basis.
This share class launched on 18 November 2016.

On 12 August 2019, where applicable, the income and accumulation sub-funds merged. Performance shown is for the accumulation share class.

Past performance should not be seen as an indication of future performance.

The investment objective of the sub-fund changed on 25 March 2019 due to the sub-fund ceasing to be part of a master feeder arrangement. Therefore, performance shown prior to this date was achieved under differing circumstances.

Past performance is for the P2-class shares and is a combination of the UK-domiciled ex master fund and the current share class performances.

PRACTICAL INFORMATION

Depository: HSBC Continental Europe, Luxembourg
Additional information: This Key Investor Information Document (KIID) may not contain all the information you need. For additional information on the sub-fund (including the Supplementary Information Document), on other shares of this sub-fund and on other sub-funds, or to obtain a free copy of the sub-fund's prospectus or the annual and semi-annual shareholder reports, call the International information line.
