# Rathbone Greenbank Global Sustainable Bond Fund

## Investment objective

We aim to deliver a greater total return (income and capital growth) than a composite benchmark, after fees, over any rolling five-year period. Composite benchmark: 70% ICE BofA Global Corporate Index (Hedged to GBP), 15% ICE BofA Global Government Excluding Japan Index (Hedged to GBP), 15% ICE BofA All Maturity Global High Yield Index (Hedged to GBP).

## Investment strategy

To meet the objective, the fund manager will invest globally with at least 60% in investment grade credit (with a credit rating of AAA to BBB-). The remaining 40% of the fund may be invested in government bonds, investment grade corporate bonds or high yield corporate bonds (with a credit rating below BBB- or with no rating at all). Our fund's ethical and sustainability criteria are applied by Rathbone Greenbank Investments, an ethical research division of our company, which cannot be influenced by our fund managers. Companies are assessed against positive and negative social and environmental criteria.

## You should know

### Important information

Copies of the Prospectus, the Key Investor Information Document (KIID), the Supplementary Information Document (SID), and application forms may be obtained, free of charge, from Rathbones Asset Management Limited.

Details of tax levels and reliefs may change in the future. The value of any tax relief depends on individual circumstances. If you have doubts about your tax position, or the suitability of this investment, you should seek professional advice. Interest rate fluctuations are likely to affect the capital value of investments within bond funds. When long term interest rates rise the capital value of units is likely to fall and vice versa. The effect will be more apparent on funds that invest significantly in long-dated securities. The value of capital and income will fluctuate as interest rates and credit ratings of the issuing companies change.

The annual management charge and other income expenses are paid out of the fund's capital.

### Information notes

If you require clarity on any of the terms used in this factsheet then please refer to our Supplementary Information Document for further explanation.

<sup>^</sup>The ongoing charges figure (OCF) includes the Annual Management Charge and all appropriate costs that may be deducted from the fund's assets, in line with current regulatory and industry guidance. Where appropriate, the OCF may include a synthetic element relating to the costs incurred in underlying collective investment undertakings, where permitted by the Prospectus. The OCF is included in the Annual or Interim report and are calculated biannually.

## Sustainability analysis by Greenbank

**Kate Elliot**

*Head of Ethical, Sustainable and Impact Research*

Kate assesses the ESG performance of companies and monitors emerging ethical and sustainability themes. She also developed the fund's sustainability reporting frameworks.

**Sophie Lawrence**

*Stewardship and Engagement Lead*

Sophie joined Greenbank in January 2020 as a senior ethical, sustainable and impact researcher. Now as stewardship and engagement lead she is responsible for the delivery of key engagement projects and shaping Greenbank's engagement strategy.

**Matt Crossman**

*Stewardship Director for Rathbones*

Matt oversees the work of the group Stewardship Committee and ensures active voting at company AGMs. He also leads thematic engagement with companies on ESG issues.
